## EVALUATION CRITERIA

### A. Product Reliability

#### 1. Vendor / Product track record

Consistent award winner and constantly bringing new features to it's product

#### 2. Vendor support required

Not required

#### 3. Ease of use

Simple interface, fairly intuitive

#### 4. Support required by RIC / school district

Backup administration just like any other backup products

#### 5. Potential to become "White Elephant"

License in perpetuity so you could continue to use it without paying additional maintenance.

6. Training requirements

None required.

B. Product-Price / Acquisition

1. Cost effectiveness

Sample quote attached, similar to other backup software but not use or  
require agents.

2. Acquire via NYS Contract or local bid

Both

3. Cost of operation and support

\$625 per processor      \$175 per yr. renewal, updates and support

4. Do any legal or contractual issues exist

None known/.

C. Product-Relationship to Other Standards

1. Compatibility to existing Standards

We have backup software but none that back up all the files related to  
a virtual machine

2. What other options are available

PHD Virtual

3. Relationship to previous research and changes since that time

D.

BOCES-Service Needs

1. Define and explain the current need

As VM's become more common there is a need for backup software to back up  
all of the files needed for restore. (not just disks).

2. What existing CoSer and RIC Service does it fall under

Instructional and Management

3. What is the scope and size of the school population to be served

800 adults, 6100 students

4. Instructional and/or administrative goal supported

Data Protection

5. Results of survey determining school district interest in using this product

Signature of person making request
